Local Place Plan, Dunoon

Creating a climate for change

Underpinning our work is a commitment to sustainable development

United Nation Sustainable Development Goals [The 2030 Agenda for Sustainable Development](#), adopted by all United Nations Member States in 2015.

National level

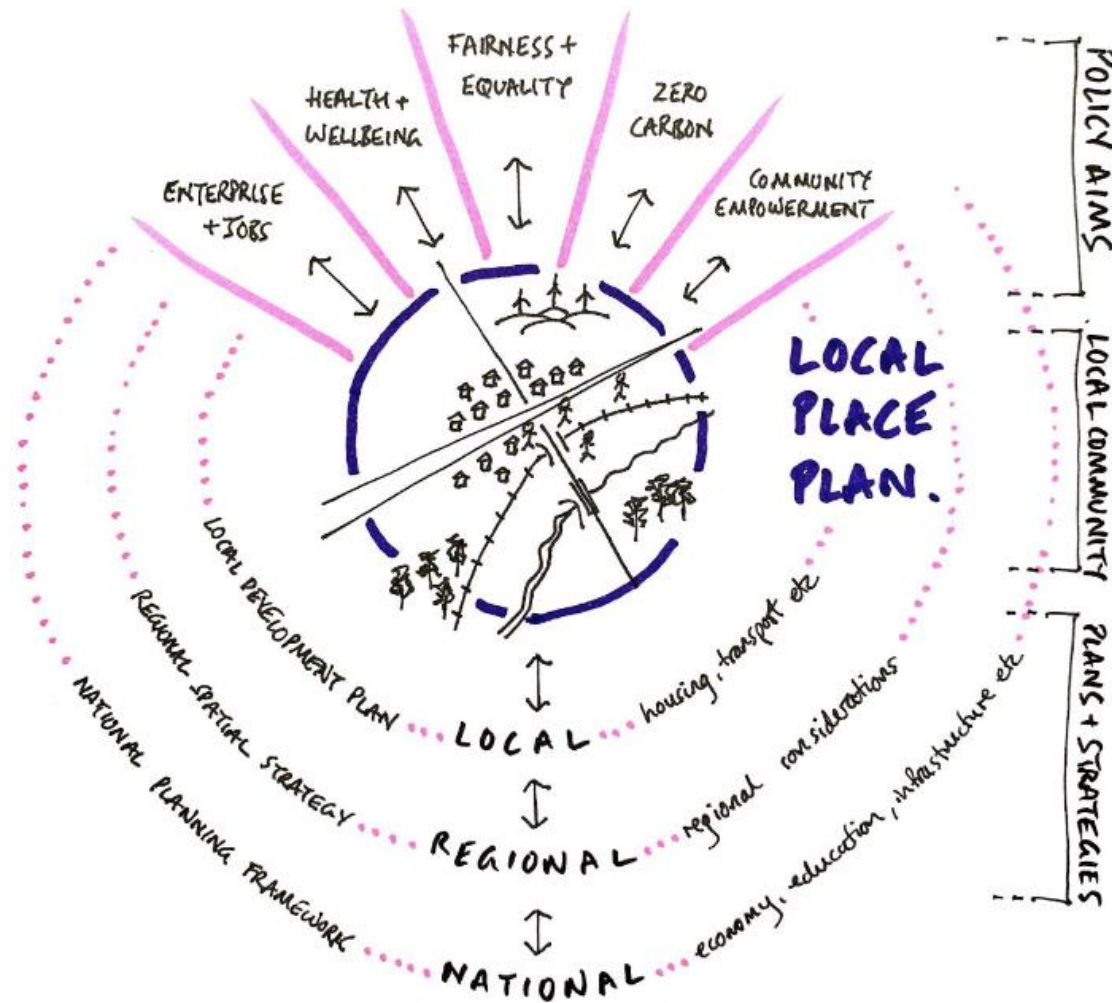

2045

The National Performance Framework is for all of Scotland. It sets out a vision for collective wellbeing. *11 National outcomes*

Local community empowerment

Local Place Plans offer communities the opportunity to develop proposals for their local area, expressing their aspirations and ambitions for future change.

**But how do we
know what
people want?**

Community Engagement

Community engagement is a way to **build and sustain relationships** between different organisations and groups

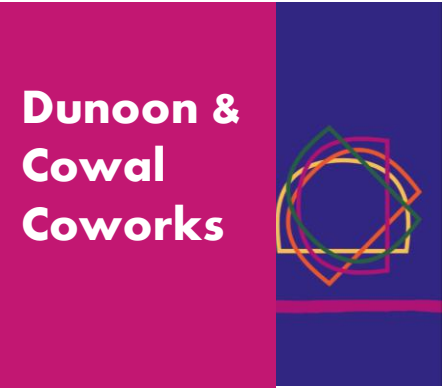

Good community engagement will mean that **everyone involved can understand and act together** to help achieve positive change

In Scotland community engagement is improved and guided by the **National Standards for Community Engagement**

Community engagement that builds health and wealth in our community
